Preface

The *Statistical Abstract for Missouri* (*SAM*) is a comprehensive single source reference for economic and demographic statistical data pertaining to the state. Data are compiled from in-house data bases, and a variety of federal, state, local and private references. *SAM* is designed to provide Missourians with a convenient reference guide for many of the important summary statistics on Missouri and related data for the United States. *SAM* contains information on population and population trends, income, employment, prices, and earnings data for Missouri and the U.S.; business, finance, construction, transportation and natural resources information; and fiscal data for federal, state and local government.

There have been several changes and additions to this issue of *SAM*. Private school enrollment has been added to the Population Section, which, has been expanded to include the Vital Statistics in Missouri, such as birth, death, marriage and divorce rates. In the Transportation Section there are two tables on Air Traffic in Missouri and some from the National Travel Survey and Truck and Use Survey.

The data in *SAM* is reported in as detailed a format as cost considerations allow. However, many of the data series are available in more detail and/or for longer time spans than is reported in *SAM* and will be provided upon request.

While we have attempted to include most of the important economic and demographic data series which are available we have, no doubt, overlooked some. Therefore, we welcome suggestions for additions in future issues.

We would like to extend our thanks to various governmental agencies--state, local and federal--and to many private institutions, for their cooperation in providing much of the data in *SAM*.

We have selected over twenty of the most used data series from *SAM* and have prepared detailed information for each county. We can prepare tables of the exact data you need for any county or group of counties. Please write or call us to determine how we can meet your data requirements.
